

## Wireless Receiver

Single-channel receiver for RF dimmers

Suitable for White & Single-Colour LEDs

*Commercial Grade*

Single-channel wireless receiver unit, compatible with white or single-colour dimmers.

Available in 12 volt / 24 volt versions.

Outputs 8 amps (up to 96 watts with the 12 volt model, 192 watts with the 24 volt model).

RF wireless connection range: up to 20 metres. Simply press the receiver's button to pair it with your controller.

The wireless receiver will dim any white or single-colour LED tape. Compact and convenient, offering reliable, smooth dimming. Use multiple receivers within the same zone and set them all to the same channel, to be controlled together. Or set all the receivers to different zone controllers and they will not interfere with each other.

### quick spec sheet

Product code: RC-RF-1

#### Physical construction

Colour	White
Materials	Plastic
IP Rating	IP22
Length	102 mm
Width	38 mm
Depth	22 mm

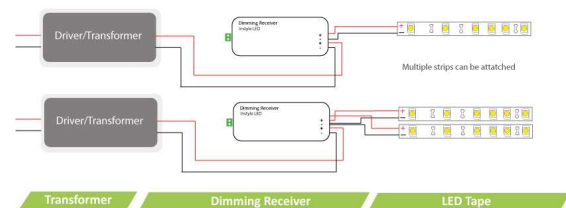

#### Electrical

Input voltage	12 V or 24 V
Output voltage	12 V or 24 V (36 V also available)
Output current	8 amps
Wattage	96 W or 192 W (288 W also available)

### wiring / connections

#### Wireless Receiver

Multiple controllers can be used
