

DATA SHEET

Single Colour LED Strip      Product Code: W-5-PINK-12V-COB-4MM

5W 12V SC COB 4MM

**5W**  
Wattage / M

**12V**  
Voltage DC

**480**  
LED / M

**ROHS**  
Compliant

**CE**

**5 YEAR**  
WARRANTY

PRODUCT SPECIFICATION

|                    |                               |
|--------------------|-------------------------------|
| Wattage / M        | 5W                            |
| Voltage (DC)       | 12V                           |
| LED / M            | 480                           |
| Cut Points (mm)    | 25mm                          |
| Strip Width (mm)   | 4mm                           |
| Lumens / M         | 588                           |
| Lumens / W         | 125                           |
| Kelvin             | PINK                          |
| CRI                | 90+                           |
| IP Rating          | IP20                          |
| Strip Depth (mm)   | 2mm                           |
| Beam Angle         | 180°                          |
| Reel Length (m)    | 5m (Custom Lengths Available) |
| Max Run Length (m) | 10m (Powered From One End)    |
| Chip Set           | Epistar (COB)                 |
| Warranty           | 5 Years                       |
| Backing Tape       | 3M 300LSE                     |

## DIMENSIONS

## ADVICE

All of our LEDs are self adhesive and backed with 3M adhesive backing, which can be upgraded to our extra-strong foam backing tape for additional stability on horizontal surfaces.

### **Aluminium profiles benefit in a number of ways:**

**Heatsink** - Applying the LED strip onto or into an LED profile will ensure that any heat created will dissipate, which in turn will benefit the LEDs longevity.

**Adhesion** - LED strip lights will always adhere better to the aluminium profile than any other substrate. So no LEDs falling down a few days after installation.

**A Complete Project** - Housing within a profile will always offer a more complete look. Rather than having your LEDs on show, you can have plastered in, recessed or surface mounted profiles which blend into their surroundings, completing the project perfectly.

**Protection** - Instead of leaving the LEDs open to the elements, even on internal projects, housing within an aluminium profile will give added protection for little fingers, spilt drinks or dusting / cleaning.
