

# 35-Watt LED Power Supply (IP67-rated)

Sealed LED driver for exterior projects

Constant voltage

*Commercial Grade*

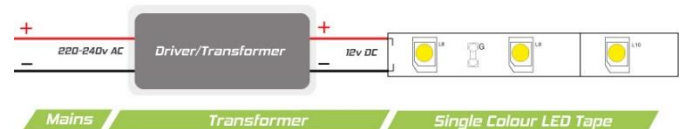

This IP67-rated 35-watt LED power supply is ideal for lighting installations that are prone to moisture. Available in a choice of 12-volt or 24-volt versions, each unit can drive up to 35W of corresponding voltage LED lighting with no minimum load.

Small enough to be installed in most locations, the moisture-proof 35-watt transformer can be used to drive either single-colour LEDs or colour-changing (RGB/RGBW) LEDs. The casing is fully sealed with hardwired connections, so it is safe to touch.

This item is RoHS compliant and conforms to all UK safety standards. Input voltage 100-240v AC. Output voltage 12v or 24v (2 models).

## wiring / connections

### Connection Diagram

## quick spec sheet

### Physical construction

Colour	White
Materials	Plastic
IP Rating	IP67
Length	149 mm
Width	32 mm
Depth	28 mm

### Electrical

Input voltage	100V ~ 240V
Output voltage	12V or 24V
Output current	3.0A (12V) or 1.5A (24V)
Output wattage	35W
