

Product Features:

- Suitable for control of dimmable compact fluorescent and LED lamps, dimmable electronic transformers, LED drivers, toroidal transformers and tungsten lamps
- Integrated trimming potentiometer allows CFL and LED lamps to be set at a minimum level to prevent them going out or flickering at the bottom of the dimmer range
- Leading edge phase control
- For use with resistive and inductive loads
- Integrated over-temperature protection fuse
- Module case ultrasonically sealed to reduce dimmer buzzing
- Smooth dimming operation from 0-100% light output
- May be fitted to most dimmer plates
- One or two way switching
- Derate Dimmer by 70% for LED loads
- 1 year warranty
