

Easy RF LED Dimmer Kit

RF control for white / single-colour LEDs

Commercial Grade

The easy RF LED dimmer package is a complete receiver and dimmer kit. With a suitable power supply, the two units give full control over white or single-colour LED strip lights.

The compact keychain-sized wireless remote allows you to switch your LEDs on/off and dim from 0 to 100% brightness. The remote and receiver connect using an RF (radio frequency) signal, with a range of up to 20m (no need to be 'line of sight').

This single-channel receiver offers a high output amperage of 20A – sufficient to control up to 48 metres of 12v white / single-colour LED tape (5 watts).

quick spec sheet

Product code: DM-RF20

Physical construction

Colour Matt-black finish

Materials Plastic

IP Rating IP22

Dimensions:

Dimmer Remote 30 x 18 x 58mm

Dimmer Receiver 64 x 24 x 82mm

Electrical

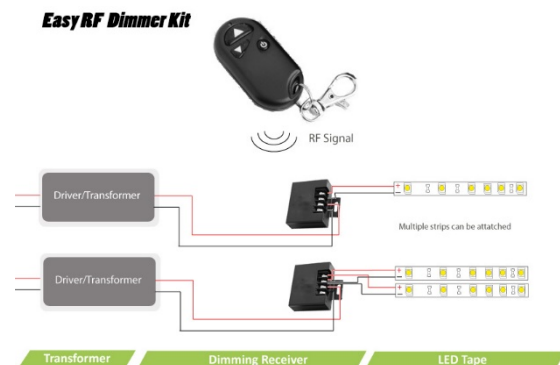

Input voltage 12 V or 24 V

Output voltage 12 V or 24 V

Output current 20 amps

Wattage 240 W or 480 W
