

# Wireless Remote Dimmer/Controller

RF control for white & single-colour LEDs

*Commercial Grade*

A complete control kit for white and single-colour LEDs, including single-channel receiver module and handheld wireless remote. Installed with a suitable transformer, these two units offer full dimming, four presets and the option to store/recall up to two favourite light-level settings.

Controller and receiver are linked by an RF signal (434MHz/868MHz) with a range of up to 20m ('line of sight' not required).

Total output = 10A. The receiver can drive up to 240W of 12v single-colour LED tape, or 4800W of 24v tape. It offers control for a single lighting zone; to manage multiple zones through a single control, a 5-zone remote unit is also available.

## quick spec sheet

### Physical construction

Colour White  
Materials Plastic  
IP Rating IP20

### Dimensions:

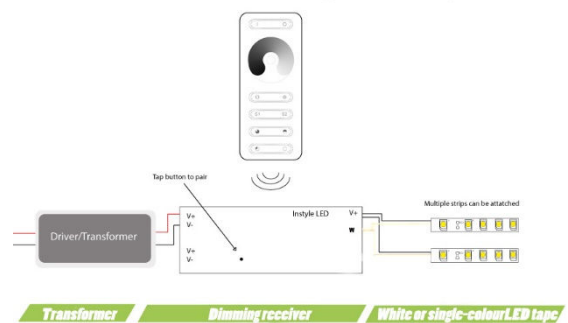

Remote 120 x 48 x 18mm  
Receiver 145 x 48 x 17mm

### Electrical

Input voltage 12 V or 24 V  
Output voltage 12 V or 24 V  
Output current 10 amps  
Wattage 120 W or 240 W

## wiring / connections

### Wireless Dimmer/Controller (with Receiver)
